

WORKMAN II

Road towable mixers with two pneumatic wheels

Workman II 250/350 Standard Equipment

- ✓ Honda GX 160 4 kW or Subaru EX17 4.2 kW petrol engine
- ✓ Transmission system with high resistance belt and steel gears in oil bath that are maintenance free
- ✓ Towbar for road transportation up to 90 km/h (road towability is valid only in countries where this is allowed)
- ✓ 2 pneumatic wheels

Applications

Designed and built to solve the problems of traditional mixers, the Syntesi R, Syntesi 350RS, Syntesi F, Syntesi 350 LA and Workman II 250-350 are fitted with two or four pneumatic wheels for displacement. The worm screw tilting system protects against accidental overturning of the drum and reduces effort, while the gearbox warrants maximum silence.

Workman II

Shipment and storage
34 units in 40 feet HC container
