**Standard Equipment**

- Single-phase 230V/50Hz motor
- Gearmotor in die-cast aluminium with gears in oil bath protected by a shatter-resistant plastic housing;
- Available in the versions with steel drum and poly drum (HDPE);
- IP 55 switch with no-volt coil and IP 67 plug;
- Electric safety: built to EN 60204-1 double insulation norms, protected against spraying water (IP 55), overload and also against inadvertent starting again after a power failure.
- Steel mixing paddles
- Packing: cardboard

**Applications**

The simplicity of assembly/disassembly and a low noise level of 63 dB(A) make it particularly suitable for working indoors.

**Simple and fast assembly**

Assembly and disassembly of the MINIBETA is simple and takes just 3 minutes. After use it can be split into the 3 main components and put back in the box.

**Maximum silence**

The Minibeta is extremely quiet. The noise level of 63 dB(A) makes it possible to work indoors without causing bother.

**Electrical safety**

Fitted with double insulation, the Minibeta mixer is manufactured in accordance with Std. EN 60204-1 and is protected against spraying water (IP55) and also against overload and inadvertent starting again after a power failure.
