

MULTI-MIX 350

Portable 115V concrete mixer for mortar, stucco, grout or concrete

Standard Equipment

- ✓ Single-phase 115V/60Hz 1.4 kW electric motor
- ✓ IP55 switch and no-volt coil
- ✓ Transmission system with high resistance belt and steel gears in oil bath that are maintenance-free
- ✓ Towbar for transport around the jobsite (not towable on road)
- ✓ Heavy-duty construction mixing paddles, welded and screwed for added strength and a consistent mix
- ✓ Strong and reliable box steel frame
- ✓ Forklift pockets for easy movement

Applications

Portable, non-towable mixer for mortar, stucco, grout or concrete. Designed and built to mix large batches in a portable 115V traditional concrete mixer. The transmission system inserted in the arm and the convenient worm screw tilting system makes it noiseless and lightweight, and at the same time, sturdy and reliable.

MULTI-MIX 350		
Drum capacity	l	345
Batch output*	l	~280
Drum diameter	mm	823
Wheel dimensions	Ø mm	385x90
Electric power supply	V / Hz	115 / 60 Sph
Electric motor power rate	kW	1.4
Running current	A	14
SPL in operator's position	kg	72
Machine weight	mm	175
Machine dim. w/l/h	mm	930/1610/1600
Packing dim. w/l/h	mm	950/1700/1500
Max stackability**		2 (h 2600 mm)

(*) The mixing capacity varies depending on the type of material and inclination of the drum.
(**) Number of stackable pieces and total height including pallet.
