

### Standard Equipment

- ✓ Single-phase 230V/50Hz electric motor
- ✓ Gearmotor with steel and technopolymer gears
- ✓ Electric safety: built to EN 60204-1 double insulation norms, protected against spraying water (IP 55) and against overload and inadvertent starting again after a power failure.
- ✓ Packing: cardboard

### Applications

Concrete mixer of reduced volume and high discharge. It allows to unload the material directly to the wheelbarrow (without the necessity to use the trestle). Easy access to the drum during the material loading. Easy to use in narrow spaces, with possibility of transport to the floor. Oversized solid wheels ensure the stability on any construction site.
